

# RTA PI CLAIMS PROCESS

## RTA Portal - 'Release 2' Change Content

Following the latest [news e-shot](#) dated 14 December 2011, a breakdown of the content of Release 2 can be downloaded by [clicking here](#).

Preparations and development continue for the next wave of system enhancements and improvements for the roll out of Release 2 in **mid September 2012**.

In total, seventeen changes form the Release; derived from change requests from Portal users and the requirement to ensure the Portal matches the Ministry of Justice (MOJ) Pre Action Protocol.

Development and testing is currently in progress and will continue into February 2012 after which Web User Acceptance Testing will begin.

Requests will be issued separately for prospective partners to take part in the testing for both Web development and Application-to-Application (A2A).

Regards,  
Ashley Sutton  
Head of Information Systems
